

CALEB BRUSKI

FRONT-END WEB DEVELOPER AND CONTENT MARKETER

/ ABOUT ME

Husband to the greatest woman and father to the best daughter.

I was born and raised in America, but moved to Romania in 2004 to help in humanitarian efforts. I have moved back and forth between these two countries over the years.

I am a self-taught front-end developer with a passion for learning about new tech.

After building websites for a few years, I developed an interest in content marketing and SEO. I currently freelance in all of these domains.
